## FOREWORD

I am pleased to authorize the release of the Municipal Directory for 1968.

The Directory is prepared annually to be a readily accessible source of information concerning municipalities, their principal officials and their representatives in the provincial Legislature and of officials in the Department of Municipal Affairs. Its early publication each year is made possible by the co-operation of many municipal officials to whom, on behalf of the thousands of users of this Directory, I extend my appreciation.

A handwritten signature in dark ink, appearing to read 'W. A. Bennett', is centered on the page. The signature is fluid and cursive, with a long horizontal stroke at the end.

# ASSESSMENT

ASSESSMENT GROWTH

TAXABLE ASSESSMENT GROWTH

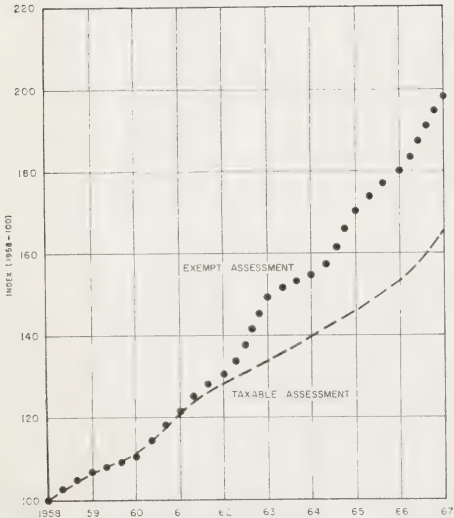

## EXPLANATION CONCERNING ASSESSMENT

The taxable and the exempt assessment of the municipalities, which is entered on pages 18 to 117, is referred to as the "1967 assessment". It was determined and reported by the assessor during the year 1967 and delivered to the clerk prior to October 1st of that year. The taxable assessment, as entered on the above-mentioned pages, is that upon which realty and business taxes for the year 1968 will be levied, subject to minor variations because of appeals.

The growth in exempt assessment, as disclosed in these graphs, may be explained substantially by the fact that, prior to recent years, many municipalities either did not assess exempt properties at all or assessed them at unrealistic amounts.

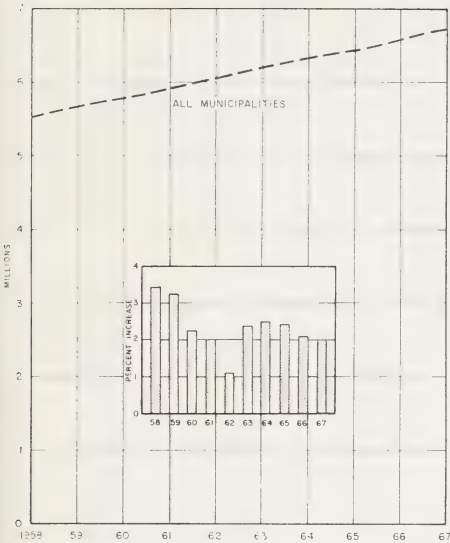

RELATIVE ASSESSMENT GROWTH

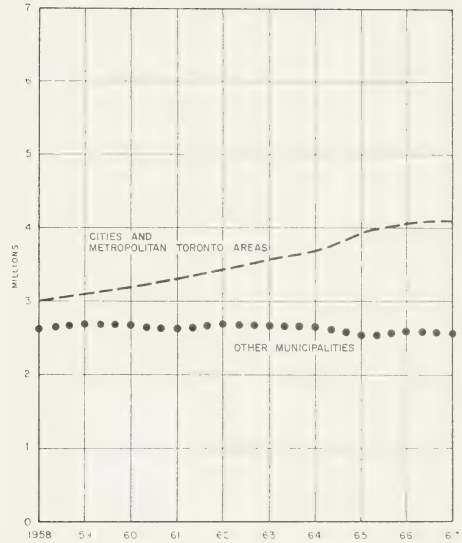

# POPULATION

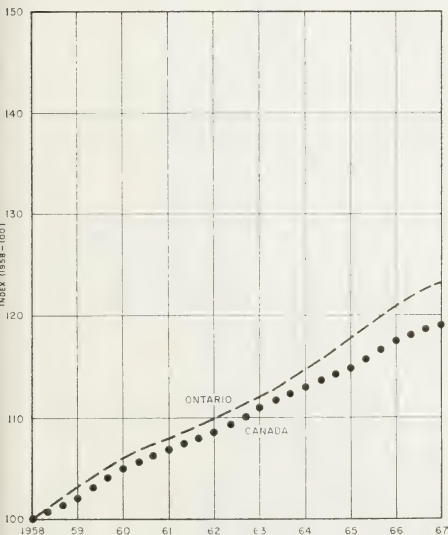

POPULATION GROWTH

POPULATION GROWTH

RELATIVE POPULATION GROWTH

## EXPLANATION CONCERNING POPULATION

The population of each municipality which is entered on pages 18 to 117 is referred to as the "1967 assessed population". It is the total population residing therein on a permanent basis reported by the assessor during the year 1967 less the number of persons who reside in institutions, defence establishments and on Indian reserves. The assessed population has been used in the preparation of the graphs.

## FOREWORD

Every year, an increasing number of people use the annual Municipal Directory: municipal officials, members of federal and provincial governments, and others who have a particular interest in Ontario municipalities.

The Directory is a prime source of information on municipal officials both elected and appointed and also contains data on population and assessment. As I release the 1969 edition, I am mindful that the ready availability of such information is due to the hundreds of municipal officials who take pains to compile and file their returns early. On behalf of all users of the Directory, I extend to them my warmest appreciation.

A handwritten signature in dark ink, appearing to read 'W. A. Bennett', is centered on the page. The signature is fluid and cursive, with a long horizontal stroke at the end.

# ASSESSMENT

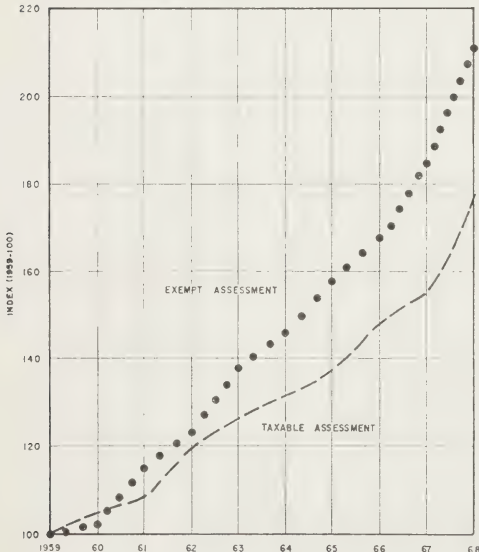

ASSESSMENT GROWTH

TAXABLE ASSESSMENT GROWTH

RELATIVE ASSESSMENT GROWTH

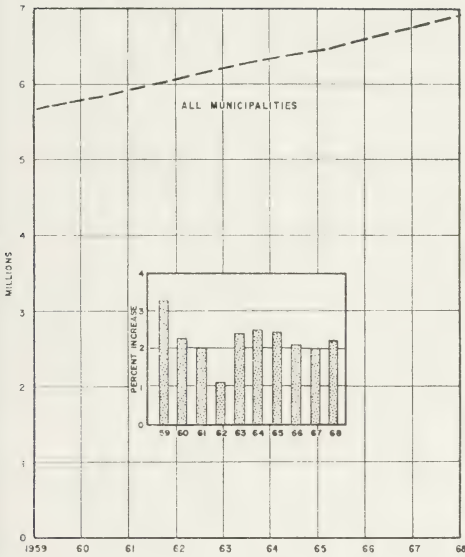

## EXPLANATION CONCERNING ASSESSMENT

The taxable and the exempt assessment of the municipalities, which is entered on pages 18 to 117, is referred to as the "1968 assessment". It was determined and reported by the assessor during the year 1968 and delivered to the clerk prior to October 1st of that year. The taxable assessment, as entered on the above-mentioned pages, is that upon which realty and business taxes for the year 1969 will be levied, subject to minor variations because of appeals.

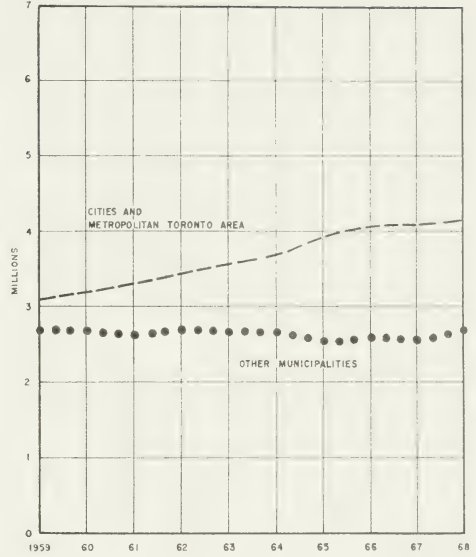

The growth in exempt assessment, as disclosed in these graphs, may be explained substantially by the fact that, prior to recent years, many municipalities either did not assess exempt properties at all or assessed them at unrealistic amounts.

# POPULATION

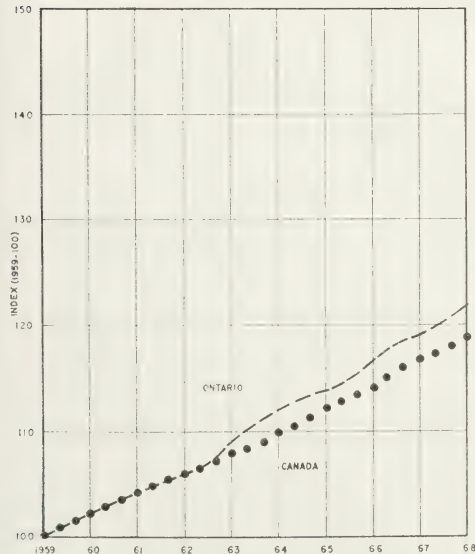

POPULATION GROWTH

POPULATION GROWTH

RELATIVE POPULATION GROWTH

## EXPLANATION CONCERNING POPULATION

The population of each municipality which is entered on pages 18 to 117 is the total population residing therein on a permanent basis reported by the assessor during the year 1968 less the number of persons who reside in institutions, defence establishments and on Indian reserves.

## FOREWORD

It is with pleasure that I release the 1970 MUNICIPAL DIRECTORY. Each year more and more people use the DIRECTORY: members of federal, provincial, and municipal governments, as well as many specialists who have a particular interest in Ontario municipalities.

This publication is the only convenient source of information on both elected representatives and appointed officials. This year we have added information on chief administrative officers, and telephone numbers. More meaningful summaries have also been prepared.

The publication of the DIRECTORY is made possible because hundreds of municipal officials co-operate so whole-heartedly in its compilation. On behalf of all users I extend to them my warmest appreciation.

A handwritten signature in dark ink, appearing to read "Allan Rock", with a horizontal line drawn underneath the signature.

*Minister of Municipal Affairs.*

## INTRODUCTION

The '1969 POPULATION' shown for each municipality on pages 1 through 98 are the results of data collected by local assessors or assessment commissioners during 1969.

These populations mean those people residing in a municipality on a permanent basis – less the number of persons who reside in institutions, defense establishments and reserves.

The annual totals of population as defined above have been used in the exhibits which follow. Such population figures refer only to municipally organized areas. However, close to 95% of the total population of Ontario is to be found in its municipalities.

The population used for the top half of exhibit A has been estimated by the Dominion Bureau of Statistics as at June 1 each year.

'HOUSEHOLD' is defined by both the Assessment Act and the Residential Property Tax Reduction Act as "a single family dwelling unit – or a portion of a building which is a domestic establishment – consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals."

'1969 TAXABLE ASSESSMENTS' shown for each municipality on pages 1 through 98 were determined by assessors during 1969 and presented to municipal clerks prior to October 1, 1969.

These taxable assessments are those upon which realty and business taxes for the year 1970 will be levied, subject to variations resulting from Court of Revision changes.

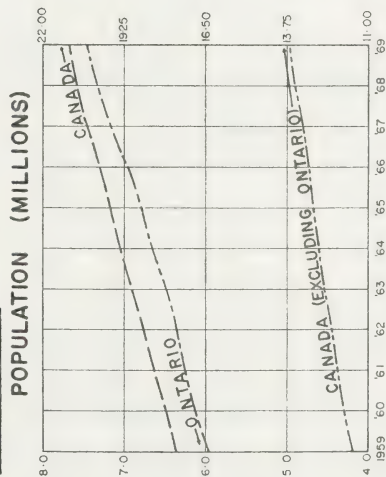

Comparisons between taxable assessments are not really possible due to variations in the assessment bases.

'CHIEF ADMINISTRATIVE OFFICER': though the title of this official may vary from one municipality to another, e.g., 'Manager', 'Administrator', 'Clerk-Administrator', 'Clerk-Comptroller', all such officers have been appointed to this position by means of a by-law. A chief administrative officer sometimes holds other offices within the municipal corporation.

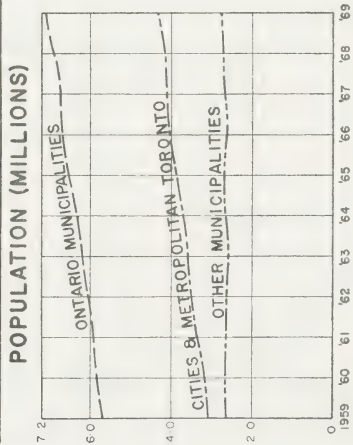

'MUNICIPAL TELEPHONE NUMBERS', appearing on pages 1 through 98 are those of the clerk or clerk-Treasurer unless otherwise specified. Where applicable, the area code number preceeds the telephone number.

## FOREWORD

As one of my first official duties as Minister of Municipal Affairs, it gives me great pleasure to release the 1971 MUNICIPAL DIRECTORY.

The MUNICIPAL DIRECTORY is the only convenient source of information on both elected and appointed officials. Its ever widening use by those in all levels of government as well as others interested in municipal affairs has seen the DIRECTORY become one of the most widely used annual publications issued by the Province.

This publication is possible only through the efforts of hundreds of municipal officials. Many of these I already know, numerous others I look forward to meeting. On behalf of all users I say thank you.

A handwritten signature in dark ink, reading "Lutton Bales". The signature is written in a cursive, flowing style. The first name "Lutton" is written with a large, prominent 'L' and a long horizontal stroke extending to the right. The second name "Bales" is written in a similar cursive style, with a large 'B' and a long horizontal stroke extending to the right. The signature is positioned above the printed name of the Minister of Municipal Affairs.

*Minister of Municipal Affairs.*

## INTRODUCTION

When using the DIRECTORY, the following should be noted:

- \* MUNICIPALITY NAMES are ranked alphabetically herein for convenience. Where a geographic reference precedes the main part of the official name, the latter part is used for ranking purposes, e.g., York, East. However, such cases are identified by '+' and the official name East York is shown on the Official Name Index, Page 120.
- \* TELEPHONE NUMBERS are those of the Clerk or Clerk-Treasurer unless noted otherwise. Where pertinent, the area code precedes the number.
- \* 1970 POPULATION figures shown for each municipality were collected by assessment officials during 1970. Population means those persons residing in a municipality on a permanent basis — less those residing in institutions, defence establishments and reserves.

Annual totals of population, as defined above, have been used in Plates herein. Such figures refer only to municipally organized areas. However, close to 95% of Ontario's population is to be found in its municipalities.

Population used in the top half of PLATE 'A' has been estimated by the Dominion Bureau of Statistics as at June 1 each year.

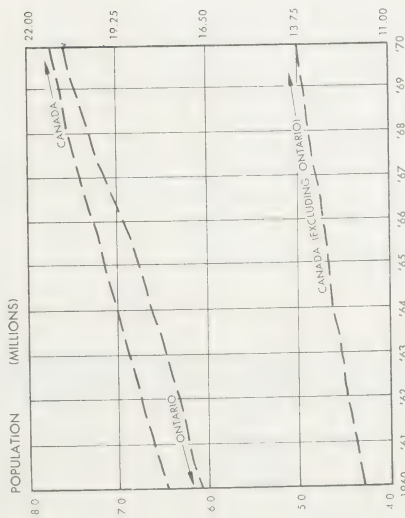

- \* 1970 TAXABLE ASSESSMENTS for each municipality were determined by assessors during 1970 and are those upon which realty and business taxes for the year 1971 will be levied, subject to changes resulting from Assessment Review Court proceedings and other minor revisions.

Comparisons between taxable assessments are not possible due to variations in assessment bases.

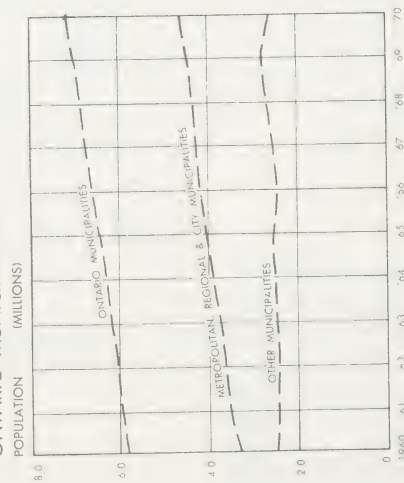

- \* CHIEF ADMINISTRATIVE OFFICER: though the title of this official may vary from one municipality to another, e.g., 'Manager', 'Administrator', 'Clerk-Administrator', 'Clerk-Comptroller' etc., all such officers have been appointed to this position by means of a by-law. A chief administrative officer sometimes holds other offices within the municipal corporation.
- \* 'HOUSEHOLD' data appearing in Plate 'C' is defined by both the Assessment Act and the Residential Property Tax Reduction Act as "a single family dwelling unit — or a portion of a building which is a domestic establishment — consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals".
- \* PLATES have been revised for increased use and convenience. Where possible, year-earlier comparative data has been added. PLATE 'B' is based on the 'Return of Assessment, Population, and Area of A Local Municipality' which summarizes data gathered by assessors in the year shown.

## FOREWORD

It is with pleasure that I release the 1972 MUNICIPAL DIRECTORY.

THE MUNICIPAL DIRECTORY is the only convenient source of information on both elected and appointed officials. Its ever-widening use by those in all levels of government as well as others interested in municipal affairs has seen the DIRECTORY become one of the most widely used annual publications issued by the Province.

This publication is possible only through the efforts of hundreds of local officials, all of whom I look forward to working with once again.

A handwritten signature in dark ink, appearing to read "Allan Rock", written over a horizontal line.

*Treasurer of Ontario*

February 15, 1972

## INTRODUCTION

When using the DIRECTORY, the following should be noted:

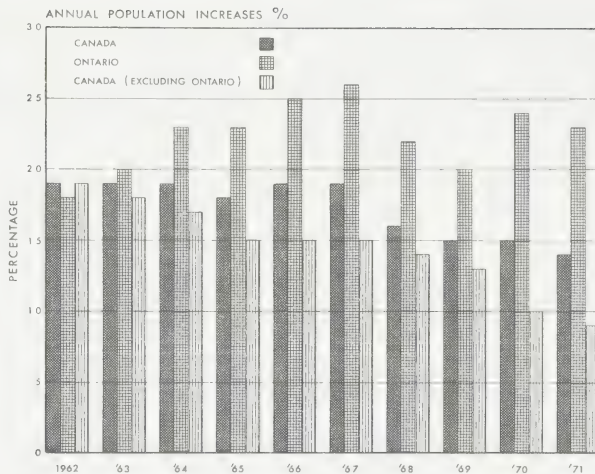

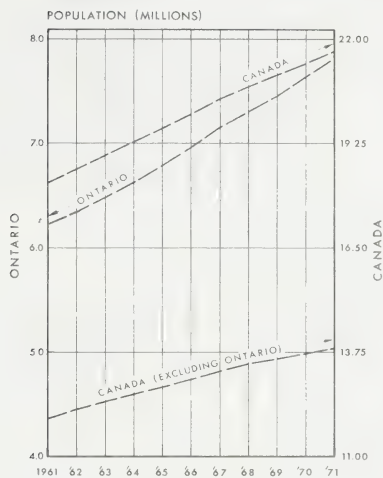

- \* MUNICIPALITY NAMES are ranked alphabetically herein for convenience. Where a geographic reference precedes the main part of the official name, the latter part is used for ranking purposes, e.g., York, East. However, such cases are identified by '+' and the official name East York is shown on the Official Name Index, Page 118.
- \* TELEPHONE NUMBERS are those of the Clerk or Clerk-Treasurer unless noted otherwise. Where pertinent, the area code precedes the number.
- \* 1971 POPULATION figures shown for each municipality were collected by assessment officials during 1971. Population means those persons residing in a municipality on a permanent basis – less those residing in institutions, defence establishments and reserves. Annual totals of population, as defined above, have been used in the bottom half of PLATE 'A' and in PLATES 'B' to 'G' herein. Such figures refer only to municipally organized areas. However, close to 95% of Ontario's population is to be found in its municipalities. This population is gathered by Regional Assessment Offices throughout the province and is not to be construed as originating from Federal Government census operations.

Population used in the top half of PLATE 'A' is that estimated by the Dominion Bureau of Statistics as at June 1 each year. This population includes those residing in institutions, defence establishments and reserves as well as residents of municipally unorganized areas of the Province.
- \* 1971 TAXABLE ASSESSMENTS for each municipality were determined by assessors during 1971 and are those upon which realty and business taxes for the year 1972 will be levied, subject to changes resulting from Assessment Review Court proceedings and other minor revisions. Comparisons between taxable assessments are not possible due to variations in assessment bases.
- \* CHIEF ADMINISTRATIVE OFFICER: though the title of this official may vary from one municipality to another, e.g., 'Manager', 'Administrator', 'Clerk-Administrator', 'Clerk-Comptroller' etc., all such officers have been appointed to this position by means of a by-law. A chief administrative officer sometimes holds other offices within the municipal corporation.
- \* 'HOUSEHOLD' data appearing in PLATE 'C' is defined by both The Assessment Act and The Residential Property Tax Reduction Act as "a single family dwelling unit – or a portion of a building which is a domestic establishment – consisting of two or more rooms in which the occupants usually eat, sleep and prepare meals".
- \* PLATES have been revised for increased use and convenience. Where possible, prior year comparative data has been included and PLATES 'E' to 'G' include details on accumulative percentages by municipal status type. PLATE 'B' is based on the 'Return of Assessment, Population and Area of A Local Municipality' which summarizes data gathered by assessors in the years shown.
